

AMUSEMENTS

ANITA MEREDITH TO
BE WITH 'MERMAIDS'

One cannot recall Kolb and Dill without recalling Anita Meredith, the girl who scored so heavily with that well known fun making duet. And when the announcement is made that A. N. McDonald has secured Anita

Nazimova

— in —
"The Heart of a Child"

MACK'S MERRY

MERMAIDS

Anita Merideth

LATE OF KOLB & DILL

Is The

PRIMA DONNA

RAMONA

STARTS SUNDAY

Meredith as the prima donna with "Mack's Merry Mermaids," the company which will start its engagement at the Ramona Sunday, the excellence of the cast is again apparent. Anita Meredith is one of the best known artists in musical stock circles. She has always proven a real asset with every company with which she has been associated. Her wonderful charm and personality have endeared her to thousands, while her rich voice has made her a favorite everywhere.

The plans for the "Mermaids" will find Anita Meredith appearing not only in solo work, offering the latest ballads as well as popular numbers, but she will have several numbers which she will execute with the assistance of the "Delightful Dancing Dolls."

McDonald announces that the shows will change entirely twice a week and that they will be offered in connection with motion pictures. Pat Patterson, Victor Vernon and Al Cotton are three other reasons why the "Mermaids" are bound to score an emphatic hit in Phoenix.

No advance in prices will mark the season of musical stock at the Ramona.

"HEART OF A CHILD"
COMES TO COLUMBIA

In "The Heart of a Child," Nazimova has surpassed any previous performance in her interpretation of the workings of a primitive child's mind and heart. She has almost invariably gone to other parts of the world for her characterizations. They permit of extreme exaggeration. But she is hearing contemporary life and getting closer to the hearts of her audiences. In "The Heart of a Child," she goes to London, but she is not remote from

existence as we know it here. Her characterization of foreign types has been carefully studied, but they do not seem to be felt. The child in this case is more human than anything she has previously done and in consequence is far more effective. She has been called for "a play to suit me," but she is coming close to finding one that suits all of us.

It is Nazimova who extracts from the old material of "Heart of a Child" the new material of modern drama. With tremendous vigor, she portrays a little heroine of the highest type. The child has to struggle against the brand and scars of mean heredity. She is up against the most difficult entanglements of circumstance. She is wholly outside the barriers set up by good society. It is true that she is assisted by chance, but her greatest struggle is with herself. Her whole soul is circumscribed by childish impulse. In her so-called temptation she has only the instinct of her sex to protect her, secret whisperings of the infinite rather than of conscience. On that she wins her way.

Nazimova has gotten at those tendencies which underlie nearly all of our emotions when we are children. She is a child in every movement and expression, the soul of youth in all she does. This time she appears to feel as well as act. The effect is to warm hearts as well as excite admiration for her skill. Sympathetic support from Charles Bryan as Lord Kildermine helps amazingly. Claude Rains is admirable in a difficult role. The entire cast acts in nice harmony with the spirit of the story, the human element overtopping all others to the extent that it might be called a brilliant interpretation of the commonplace.

"The Heart of a Child," now playing at Mack's Columbia Theater, should rank as Nazimova's best screen work.

What screen star do you resemble? Tonight is the night of the movie actors' ball at the Blue Bird, and it is going to be something to remember. As previously announced, the arrangement for the novel feature is that the dancers will make up and dress to resemble some well known screen personality. Select whom you will and try to look like the selection. Then the judges will decide who are the winners—the man and woman—and to the winners will go the prizes. There are no conditions on the offer and judging from the expressed intention of many to compete, it should be a wonderfully gala affair.

The music will be specially selected, and Carol Reed promises some surprises along this line.

Loana Graham again will appear tonight in another of her alluring dance creations. Accompanied to a remarkable degree, graceful, pretty, charming, and a thorough student of the dances she interprets, Loana Graham is proving a big added feature with the dancers who nightly journey to the temple of happiness.

No advance in prices will be the policy for the event tonight.

Riverside Park
It's going to be a mighty pleased lady who wins the balloon dance at Riverside park this coming Sunday night, for in winning she will become the possessor of a valuable prize.

Co-operating with the Riverside Park management, the Parisian has charge of the capital prize for the dance this Sunday night. That popular and novel shopping center announces that the prize may be selected by the winner. All that she will have to do is to present the order for the garment.

The balloon dance this week will be the same as always with the exception of the prize. No woman barred; everyone attending the dance is eligible. There will be no advance in price.

The ballroom is all enclosed and thoroughly heated and refreshments will be served throughout the evening. The full line of Riverside buses will be running.

Yes, we expect you to be at Toft's Country Club Saturday night, for you surely couldn't miss the "Night in Paris," where you will feel perfectly at home again with all the folks from sunny France. The expert who will be there to "doll you up" like the Parisian beauties will never allow anyone to doubt your ancestry and you can simply name any of the billets and they will know right away that you are surely from just that place.

And won't it be one grand evening to meet all the French folks again? And the moose! The American band that you have heard about all week, which has just returned to the American for the rest of the present season, will start playing on the boulevard when you step into the park grounds at Toft's Country Club tomorrow night.

Sunday night the most mysterious thing in the world will be "Mysterious Night" at Toft's Country Club.

Ramona
"Spirit of Good" is the title of the Ramona's feature for today and tomorrow. It will be found one of the most appealing pictures the Ramona has yet offered, rich in that element best described as "sunshine," uplifting in its influence and thoroughly enjoyable in its unfoldment. It is not a "sermon" in the sense that it is a dry, uninteresting series of events, but rather a living story, told in its action, carrying a great moral and told in such a manner that it would be found equally as entertaining as it is appealing.

The Fox Film corporation has released the feature as one of its "sunshine" pictures and the record it has achieved all along the circuit speaks in the highest manner of its worth. Several added features comprise the augmented attractions.

Sunday starts the engagement of "Mack's Merry Mermaids," the musical comedy company which A. N. McDonald presents as one of the best that has ever traveled the west.
